

ARTIFACT

D65 Employee Nomination Journey

User story and assumption map for district employee referrals

Explores a district employee path for nominating eligible families, including assumptions, application steps, admin handoff, confirmation, and family follow-up. Use this as a persona/workflow artifact.

Portfolio use

Place this under a case-study section like "Workflow Mapping" or "Information Architecture" and pair it with one short paragraph explaining what changed because of this artifact.

Suggested caption

D65 Employee Nomination Journey: a working UX artifact used to clarify user roles, handoffs, decision points, and content requirements before moving into interface design.
